Outdoor Pendant Light

Bracket, screws and wall plugs

No bulb — see below

YOU WILL NEED

Drill, screwdriver, spirit level, voltage tester

Not confident with wiring? Use a registered electrician.

CARE

Wipe glass with a soft dry cloth once cool. Handle by the body, not the neck.

NEED A HAND?

Write to **thelightheritagelondon@gmail.com** with your order number and a photo. We reply within one working day.

INSTALLATION · 5 STEPS

Switch off at the fuse box before you start. If you are not confident with wiring, use a registered electrician.

1. Switch off at the fuse box. Outdoor lights must be earthed and on an RCD.
2. Screw the backplate to the wall with rust-proof fixings, cable through the gasket.
3. Connect brown to L, blue to N, green/yellow to earth.
4. Run clear silicone along the top edge and cable entry.
5. Fit the glass or lantern and a weatherproof LED bulb, switch on.

Isolate at the fuse box before touching wiring. Keep this guide for future reference. Recycle electrical items and bulbs, never in household waste.
